PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with 3+ years of experience engineering scalable web applications across fintech, GRC, and real estate domains. Proficient in React.js, Next.js, Node.js, NestJS, Express.js, MongoDB, and MySQL. Proven track record of delivering production-ready platforms – reducing frontend load times by 30% and boosting real-time collaboration efficiency by 40%. Experienced in building secure REST APIs, JWT/RBAC authentication systems, WebSocket-based real-time modules, and cloud deployments on AWS.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript
Frontend: React.js, Next.js, Angular, HTML5, CSS3, Tailwind CSS, Bootstrap, ShadCN UI, Responsive Design
Backend: Node.js, NestJS, Express.js, REST APIs, JWT Authentication, RBAC
Database: MongoDB, MySQL, Redis
State Management: Redux Toolkit, React Query, Zustand
Real-Time: Socket.IO, WebSockets
Testing: Jest, React Testing Library
Cloud / DevOps: AWS S3, Cloudinary, Docker
Tools & Process: Git, GitHub, Postman, Swagger, VS Code
Other: API Integration, Performance Optimization, Excel Import/Export, Lazy Loading, Code Splitting

PROFESSIONAL EXPERIENCE

Full Stack Engineer | Digital Salt Technologies **Nov 2024 – Present**

- Delivered production web applications for NSE Cogencis (financial data, stock insights, market analytics) consumed by institutional users across 4+ micro-frontend modules.
- Architected and delivered 4+ React.js and Next.js 14 micro-frontend modules for a stock market platform processing 10K+ daily financial data points.
- Engineered secure RESTful APIs with Node.js and Express.js for financial data processing, supporting 500+ concurrent users with 99.9% uptime.
- Optimized frontend performance using lazy loading, memoization, code splitting, and caching strategies, reducing initial load time by 30% and bundle size by 25%.
- Migrated a legacy JavaScript codebase to TypeScript (strict mode), cutting runtime type errors 35
- Established a reusable component library with 20+ shared UI components using ShadCN UI, Kendo UI, and Tailwind CSS, reducing feature development time by 20%.

Full Stack Developer | E-Innosec Consulting **Apr 2024 – Nov 2024**

- Developed an enterprise-grade Governance, Risk and Compliance (GRC) platform adopted by 5+ enterprise clients, streamlining compliance workflows end-to-end.
- Built onboarding and offboarding modules with granular Role-Based Access Control (RBAC) supporting 5 user roles, reducing unauthorized access incidents to zero.
- Engineered Excel import/export functionality with validation for 1,000+ row datasets using XLSX, reducing manual data entry time by 70%.

Software Developer | ValueX Digital **Mar 2023 – Mar 2024**

- Built a multi-role real estate platform (Admin, Agent, Vendor) serving 3 concurrent user types with role-specific dashboards, booking workflows, and property listing management.
- Engineered a secure document management module using Next.js, Express.js, and MongoDB with AES encryption, digital signature capture, GPS location embedding, and downloadable PDF generation for proof.
- Delivered fully responsive UI with 95+ Lighthouse performance score across all major pages using Next.js, Tailwind CSS, and code splitting techniques.

EDUCATION

Master of Computer Applications (MCA) **2021 – 2023**
Barkatullah University, Bhopal

BSc Computer Science **2018 – 2021**
Barkatullah University, Bhopal
